MESSAGE FROM
AJAY KHANNA
Vice President and
General Manager - India

Namaskar & welcome to India Extravaganza 2021!

In the last fourteen years, Herbalife Nutrition in India has taken an incredibly transformative and successful journey. With your unstinting support, our business has recorded continuous growth, rapidly digitising, adapting and adopting virtual platforms to build newer markets - one of the most powerful changes during this time has been the strengthening of our commitment to innovation. We have innovated our business in unprecedented times to introduce safer opportunities for customer engagement and have continued to expand our product portfolio with high quality science based products. We have delivered one of our most powerful performances in the middle of a global health crisis - this growth story is an example of your commitment, your adaptability as well as an unfailing sense of purpose! There can be no surer path to build an organisation of the future.

The external environment of the last 24 months also calls on us to take the higher road and do everything to protect our greatest legacy – our brand. As a global nutrition company, we are deeply committed to our core values and during uncertain times, nurturing our brand and its legacy is the only true way to navigate stronger and better. We must continue to respond to less than desirable environments with integrity, flexibility and resilience while focussing on delivering the best possible customer experience at all times.

Our Founder Mark Hughes said, “We are, very simply, people helping people”. As a global nutrition company, we are conscious of the responsibilities we bear towards our markets and our communities. Your support to the Nutrition for Zero Hunger initiative has impacted hundreds and thousands of lives and your compassion is a powerful testimony to the strength and care that is at the heart of Herbalife Nutrition. It amazes me each day to see how each one of you has risen to help loved ones, customers, communities and a country in distress. It is an honour to be on this transformative journey with you and I am confident we will emerge stronger and better than we ever were.

Dil se, best wishes for your and your family's safety, health and happiness.

Chairman's Club | India

Maya Kandrikar and Shazi Kandrikar

Maya started her Herbalife Nutrition journey in Japan while Shazi began in India. Maya and Shazi both come from families with a business background, which motivated them to look for an opportunity to build a business of their own, while also helping others. After using Herbalife Nutrition products and getting their own results, they knew they had found the opportunity.

“The future is bright: be nice to people. Live to love and love to live by changing people’s lives.”

Maya Kandrikar and Shazi Kandrikar
Chairman's Club

Maya decided to move to India to support the opening of the Indian business being inspired by Mark Hughes. They embraced Mark Hughes' business philosophy of “Use, Wear, Talk”, “10-10-10” and began to share with others what they were doing. This, along with being an example of building a strong customer base and a strong training system is what helped them create and develop an organization which is structured, strong and sustainable. Maya and Shazi are committed to developing their business and creating a positive impact on their communities. They love to travel and spread happiness to all those that they meet. Maya and Shazi are grateful to their friends, sponsors, family members, organization, corporate and Herbalife peers who have supported them through their journey to become Chairman's Club. They have two sons, and they are grateful to Herbalife Nutrition that both their sons enjoy their wellness. They are also grateful that through this opportunity they are able to give them a great education and a good life. They feel that they are just getting started and they will continue sharing this life-empowering opportunity around the world.

*10-10-10 refers to a hardworking and tough goal of talking to 10 new people every day, building 10 new first line distributors per month, and creating 10,000 PV per month.

“These distributors represent the top 1% of the company and their amazing, atypical achievements were attained through hard work, skill and dedication. Most distributors work parttime and earn supplemental income. For more, see the Statement of Average Gross Compensation on your local Herbalife website.”

Flyer is for recognition purposes only. Herbalife Nutrition reserves the right to audit final list.

Communication: Supporting Your Virtual Meetings

To: India Associates

Date: April 06, 2020

As the situation surrounding COVID-19 (coronavirus) continues to evolve, Herbalife Nutrition Associates around the world are energetically moving to hold their HOMs, STSs, Product, Nutrition Club and other trainings/meetings virtually.

To help support this great initiative and your respective businesses, we want to make sure that you have all of the tools that you need to successfully conduct your own virtual trainings in a confident and compliant manner. You can use Herbalife Nutrition resources, such as the STS Resource Center available on myherbalife.com, to access presentations, videos and tools to support your virtual trainings and meetings. To protect you, your customers and your business, we also want to highlight some important compliance information:

Herbalife Nutrition thanks you for your support in upholding the policies established to provide protections for your Associateship.

1) DO NOT RECORD MEETINGS OR CALLS

- There are consent laws and legal considerations, which vary around the world.
- ### 2) Always show the Disclaimers at the beginning and end of any meeting that talks about the business opportunity, since they:
- Set the right expectations for your participants.
 - Contain legally required information for those considering starting their own Herbalife Nutrition business.
- ### 3) Talk about our amazing products, weight loss results or the fabulous business opportunity
- Learn about claims by reviewing resources such as the "Education on Virtual Meetings" training deck. These resources provide you with the knowledge and confidence to successfully share your story!
 - Make sure all claims are truthful and substantiated.
 - Do not share achievements that are so extremely beyond what is typical. For example, representations of exotic cars, lavish lifestyle or weight loss in excess of 1.1 kilogram (kg) per week are prohibited. You can share claims and testimonials that go beyond typical results. Just be sure to follow the guidance in the Education on Virtual Meetings.
 - Do not state that the business is easy or that becoming an Associate can make someone become rich or quit their job.
 - Remember, our products do not prevent, treat, or cure any medical conditions.
 - Balance testimonials to ensure a representative range of results.
 - Remember, some claims must be accompanied by the appropriate disclaimer.

4) Do not associate our products or business opportunity benefits with COVID-19 (coronavirus)

- Associates may not promote or suggest that any of our products can prevent the spread, deter, treat or cure COVID-19.
- You can continue to make approved immunity claims about some of our products, but DO NOT make a link or association to COVID-19.
- You can certainly talk about how our business opportunity provides the flexibility to work at home and make a little extra supplemental income. But DO NOT promote the business opportunity as a great way to provide full-time financial support or replace existing employment while working from home during these uncertain times created by COVID-19.

Disclaimer:

Weight loss: These results are not typical. Individual results will vary.

Product claim: This product is not intended to diagnose, treat, cure or prevent any disease.

Income claim: Income applicable to the individuals (or examples) depicted and not average.

Herbalife Nutrition thanks you for your support in upholding the policies established to provide protections for your Associateship. Should you have any questions regarding this communication please contact Herbalife Nutrition at +91 80 40311444. You may also view Herbalife Nutrition's [Rules of Conduct](#) by visiting MyHerbalife.com, or by contacting Herbalife Nutrition for assistance.

Learn important information on sharing product claims, promoting the Herbalife Nutrition opportunity and COVID-19.

The spread of COVID-19, the novel coronavirus, has profoundly impacted us all. As we adapt to new challenges and continue to grow and protect the business, it is more important than ever that we promote Herbalife Nutrition products and the Herbalife Nutrition opportunity in a truthful and non-misleading way.

WHEN PROMOTING OUR PRODUCTS

Talk about the products and your experience using only approved claims. This means that you can continue to make approved claims about some of our products (as permitted by the product labeling), but always remember that our products do not diagnose, prevent, deter, treat, or cure diseases or medical conditions.

Promote or suggest that any of our products, including but not limited to, Afresh, Niteworks®, Herbal Aloe concentrate and others, can prevent, deter, treat, or cure COVID-19 or any medical condition relating to COVID-19. This includes indirect references through hashtags in social media, such as #covid19, #coronavirus or #quarantine. Even if the post doesn't mention the novel coronavirus, the use of the hashtag could suggest that the product is intended to prevent the spread of or treat COVID-19 and any symptoms thereof.

WHEN PROMOTING THE HERBALIFE NUTRITION OPPORTUNITY

Avoid referencing the pandemic or coronavirus when promoting the Herbalife Nutrition opportunity. Talk about the Herbalife Nutrition opportunity and the flexibility it provides to make supplemental income from home. Promote the Herbalife Nutrition opportunity the same way we have been doing for years – as a great way to earn supplemental income with a flexible schedule from anywhere.

Promote the Herbalife Nutrition opportunity as a way to provide part-time income, full-time income or replace a job that's been displaced or otherwise affected by the pandemic or promote the Herbalife Nutrition opportunity as a solution to these uncertain times.

IMPORTANT: Herbalife Nutrition Independent Associates who fail to comply with applicable Herbalife Nutrition rules may be subject to fines, suspension or termination.
